

APPENDICES

USER MANUAL FOR FAMS

Reports Generation and Analysis:

- a. FAMS provides real-time attendance tracking and reporting.
- b. You can generate reports by selecting a specific date range, course, or department.
- c. The reports will provide details such as the number of classes attended by each individual, the percentage of attendance, and other relevant information.

Integration with Other Systems:

- a. FAMS can be integrated with other systems such as student information systems, payroll systems, and HR systems.
- b. This integration can provide additional benefits such as automatic calculation of attendance-based incentives, automatic payroll processing, and more.

Conclusion : FAMS is an innovative and efficient solution for attendance management. It eliminates the need for manual processes, saves time, and improves accuracy. The system is easy to use, install and provides real-time attendance tracking and reporting.
